

Programs Review

12-Dec'2025

DU- UAE

Current Status
Red

Highlights

- ❖ User Manual and external API document shared with DU
- ❖ Updated Infra Design shared with customer
- ❖ HLD submitted to DU for review

Next Steps

- ❖ HLD submitted to DU for review on 31-Oct.
- ❖ **Provisioning of Infra at DU datacentre DU infra for OpenShift to be ready by – 15-Dec'25**
- ❖ Migration discussion started (demo of current platform ongoing)

Major Risk

- ❖ **ETA shared by Engg for User stories completion will delay the billing milestone**
- ❖ CIAM Integration (DU SPOC have asked for approval to keep the CIAM integration in Drop-2)
- ❖ Resource availability for Deployment activities

Task	Status	Target Date
Kick Off	Closed	25-Aug-2025
Cloud Readiness	In Progress	03-Oct-2025 15-Jan-26
Design Closure	In Progress	16-Sep-2025 31-Oct-2025
Base Release Deployment	Yet to start	15-Jan-2026
Integration	Yet to Start	31-Jan-2026
DU Customization	Yet to start	31-Jan-2026
UAT	Yet to Start	23-Feb-26

Support Required:

- ❖ Expertise on Open Shift based deployment
- ❖ **ETA from engg on User story development**

User Stories – DU

(DU IT customization to be ready by 31-Jan)

S No	Integration/Use case	Category	Design status	Jira Id	Release Status

Billing Milestones - DU

S No	Milestone	Amount	Target Date	ETA	Risks
1	PAC 1 (Phase 1 features without migration)	\$1,80,000	Mar-26	Jun-26	<ul style="list-style-type: none">1. Delay in Design Closure (API user pending)2. Delay in Integration Customization (all US should finish by Jan end)3. Change in Infra Planning
2	Migration	\$90,000	Mar-26	Aug-26	<ul style="list-style-type: none">1. No support from Vodafone
3	Acceptance of PAC 2 (Acceptance of PAC 2 features in test bed)	\$90,000	Jun-26	Oct-26	<ul style="list-style-type: none">1. Design discussion yet to start
4	PAC 2	\$1,80,000	Sep-26	Dec-26	
5	PAC 2 + 12 weeks	\$60,000	Dec-26	Mar-27	

Etisalat - UAE

Current Status
Red

Highlights:

- ❖ Etisalat shared sample Data from Jasper
- ❖ BRD for Drop-2 closed
- ❖ Migration Strategy Document submitted

Next Steps

- ❖ SDD Design Closure (e& Stakeholders on leave) – ETA ~~24 Oct'25~~, 10 Dec'25
- ❖ Mapping of Jasper Data – ~~20 Nov'25~~, 30-Dec-2025
- ❖ S5P1 upgrade, deployment completed in Pre Prod Sanity under way Prod Upgrade :- ETA ~~15 Nov~~, 15 Dec'25

Major Risk

- ❖ A lot of issues observed during upgrade on Pre Prod, support required for stable base release for Prod
- ❖ Migration Data shared by E& from reports, Data is shared in multiple sheets will require extra efforts to map

Task	Status	Target Date
Design Closure (Drop-2)	In Progress	10-Dec-2025
Drop -2 Customization	Yet to start	31-Jan-2026 (Tentative)
S5P1 Upgrade	Blocked	30-Oct-2025 15-Dec-2025
Migration Design	Closed	7-Oct-2025 30-Oct-2025
Migration Data	In Progress	20-Oct-2025 3-Dec-2025
Ready for Dry Run	Yet to start	31-Dec-2025
First Batch Migration	Yet to start	21-Jan-2026

Support Required:

- ❖ Enable Migration team to map data from raw format to CMP format

User Stories - Etisalat

Batelco - Bahrain

Current Status
Amber

Highlights

- ❖ Vanilla Deployment Demo completed successfully
- ❖ Draft LLD submitted to Batelco for review
- ❖ Ansible release for Batelco FM available

Next Steps

- ❖ Closure of LLD with Batelco ETA (review call set up for next week) – ~~20 Nov'25~~, 10-Dec-25
- ❖ **FM Deployment for Batelco – 15-Dec'25. No resource available**
- ❖ Network Modules upgrade :- 10-Dec`25

Major Risk

- ❖ **Delay in Customization completion puts Billing Milestone at Risk**
- ❖ **No Deployment resource available for FM deployment**
- ❖ **Support for E2E multi tenancy**

Support Required:

- ❖ Resource availability for Deployments activities

Task	Status	Target Date
Kick Off	Closed	25-Aug-2025
HLD Sign Off	Closed	17-July-2025
Vanila Deployment	Closed	18-July-2025
LLD readiness	In Progress	24-Oct-2025 15-Dec-2025
Prod Cloud Readiness	In Progress	15-Jan-2026
Pre Prod Integration and customization	In Progress	15-Jan-2026 27-Apr-2026
UAT	Yet to start	7-May-2026
Prod Readiness, RFS	Yet to Start	04-Oct-2026

User Stories - Batelco

4	SIT for first MNO or Batelco	\$2,17,500	Mar-26	May-26	(Customization should finish by Mar first week)
5	UAT for first MNO or Batelco	\$2,17,500	May-26	July-26	
6	PAC for first MNO or Batelco	\$3,62,500	Aug-26	Oct-26	
7	FAC (3 Months + PAC)	\$2,17,500	Nov-26	Jan-27	

Etisalat – WiFi (Subscription Manager)

Current Status
Green

Highlights:

- ❖ Infra design submitted
- ❖ BRD received from Etisalat
- ❖ Security Compliance provided to Etisalat

Next Steps

- ❖ Project plan to be updated to cater delay in providing infra and API
- ❖ Updated Design Document (with API design) to be shared with Etisalat – 10-Dec'25
- ❖ ETA to be shared for API customization to Etisalat – 30 Jan

Major Risk

- ❖ Availability of team to deploy vanilla version once the hardware is available

Support Required:

- ❖ Provide ETA to Etisalat for Customization complete

Task	Status	Target Date
Design Closure	Closed	17-Oct-2025 30-Oct-2025
Cloud Readiness	In Progress	24-Oct-2025 30-Nov-2025
Development Complete	Yet to start	22-Dec-2025 TBD
Testing complete	Yet to Start	12-Feb-2026 28-Feb-2026
Production Deployment	Yet to start	09-Mar-2026
Go-Live	Yet to start	26-Mar-2026
